**HAL**

---

**COMPLETION ACQUISITION 31.45% IN PRODRIVE  
TECHNOLOGIES**

Today, HAL completed the acquisition of 31.45% of the shares in Prodrive Technologies Group B.V. (“Prodrive Technologies”). This transaction was already announced on December 24, 2021. The company is active in the research, development and manufacturing of high-tech electronics, software and mechatronic products and systems. Prodrive Technologies provides solutions for, amongst others, the semiconductor, medical and electric mobility industries. Sales for 2021 amounted to €304 million. The company is based in Son, the Netherlands, and employed 2,078 FTE’s at the end of 2021.
